Suspension of activities linked to provincial negotiations

On March 15th, the healthcare network union leaders met the premier of Québec, François Legault, in the aftermath of the COVID-19 pandemic, which has changed Quebecers everyday lives, and particularly that of the healthcare professionals. They are the ones at the heart of the offensive against the virus.

It was agreed, by mutual consent, to suspend the work at the bargaining tables for the renewal of the provincial collective agreement until April 5, 2020, so that all available resources make every effort so that the population of Québec obtains the necessary services, in the safest conditions possible.

This suspension also implies the cancelation of all mobilization activities in support of the negotiations.

The APTS-FIQ Alliance is busy trying to quickly negotiate all the measures to put in place pour to support the health and social services network personnel in the context of the COVID-19 pandemic.

For more information, consult the FIQ web page, and its Facebook, Instagram and Twitter accounts.
